The **Macaron** collection evokes the pleasure of a perfect food and wine pairing through its gourmet name and its remarkable shape. Its bold, rounded contours are ideal for wine. Their potency is reinforced by the two chambers of the glass. The elegant, dazzling shape of the champagne glasses, which are neither flutes nor coupes, is designed to release the aroma of effervescent wines.

Reveal'Up has a distinct and sophisticated personality, entirely dedicated to the pleasure of wine and perfect service. Its quality stems from the balance between the elegant and light design of the glasses, their perfect stability when held, and the technical features they bring to a tasting. The sensory journey begins with a discovery of the glistening colour of the wines, through the perfect transparency of the glass. It continues with the revelation of the fruity aromas, clarified by the extra-large surface for oxygenation, in a generous bowl.

Open Up

Open Up has a revolutionary design, created for young wines, including the new world (Australia, Chile, California, etc.) served by the glass. These glasses are fiendishly effective. Their shape creates an accelerated decanter effect that encourages aromas to develop. A large surface for oxygenation that closed wines require, a lower part where aromas can develop, and an upper part of the glass that then concentrates the aroma, all come together to allow instant enjoyment.

With an elegant and unique shape, they were designed by Dany Rolland, Bordeaux vineyard owner and reputed oenologist. All the criteria were studied one by one to create the ideal glass: nose, fruit, aromas, mouth feel, feeling in the hand, weight, length of the stem, etc. This glass demonstrates remarkable durability and delicacy.
